

Special E Rescues Leftovers From THE KNOT Market Party!

Thursday, October 2, 2008 | [Jenny](#) | [Post a Comment](#) | in [Green Ideas](#), [The KNOT Event](#)

Exquisite! Green Tip: Hire a company called “Special E” to rescue items from your event.

What better way to end one of the best days of your life then to make other people’s days better (that is in addition to your guests). Special E, www.thespeciale.com, will come in and make sure any leftovers from your big day are put to good use. Extra BONUS - it is a tax write-off to the NEWLY married couple!

Thanks to Special E for coming in and rescuing all our leftovers. What an amazing job you did and I know many people had smiles because of your services. It is so good to know that these items did not go to waste.

There are many creative ways they can help at your event. Here are just a few small examples how they are helping our EARTH and neighborhoods:

- To brighten up spirits and moods, they will take leftover flowers from your wedding and deliver the blooms to children’s hospitals and nursing homes.
- Special E will also pick up and deliver any of the bottles/cans to recycling facilities. Any proceeds from recycling out then donated to help care for abused and abandoned animals.
- Any leftover food will be delivered to local homeless shelters to feed the hungry.
